

GYTR Ténéré 700 World Raid

Yamaha Motor Europe

(14/11/23)

GYTR meets Ténéré

By taking parts initially developed and used by Yamaha's official race teams, and making these available for any Yamaha owner, the GYTR accessories program is a vivid demonstration of the company's commitment to offer race level performance components to the wider public. Now for the first time, GYTR is venturing into the adventure class, introducing a range of brand new performance parts developed with the Yamaha Rally team and specifically designed for the Ténéré 700 World Raid.

3 Kits

There are 3 Kits – Performance Kit, Handling Kit and the Rally Kit.

These are all virtual kits, that you must create in your own systems, like the accessory packs you have been creating.

Part Number	Part Name
GYTFT7WRS100	PERFORMANCE KIT
907983310400	TENERE 700 GYTR FS TI NSL
GYTE51000000	GYTR CLUTCH COVER KIT

GYTE41C00000	GYTR AIR FILTER KIT
GYTF74000000	GYTR FOOTRESTSET
GYTH591A0000	GYTR ECU STAGE 1 TENERE 700

If you use the performance kit and the handling kit together (even with the Rally kit), you should use GYTR ECU Stage 2 (GYTH591A0100)!

The Build up goes like such:
Performance Kit
Performance Kit + Handling Kit
Performance Kit + Handling Kit + Rally Kit

Which means, you need the Performance kit, if you want to use the Handling kit, and you need both the Performance and the handling kit, if you were to use the Rally kit
